EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Lawrence J. Merkel (Reg. No. 41,191) on 31 July 2006.
3. The application has been amended as follows: In claims 34-51, please change "The computer readable medium" to read --The computer ~~readable~~ storage medium--
4. The following is an examiner's statement of reasons for allowance: As argued in the current application's Appeal Brief, the prior art searched and found fails to disclose that the processor is configured to establish a default address size, which is taken to mean the size of the address space or the number of bits needed to represent a valid address (Applicant's Appeal Brief page 8, paragraph 2) responsive to two operating mode indications and an enable indication.. This position was supported by the Board of Patent Appeals and Interferences, which reversed the Examiner's in co-pending application 09/483,101, now patent 6,973,562, when it was appealed for similar reasons as the current application.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
